## Be Careful What You Say.

"In speaking of persons' faults, pray don't forget your own. Remember, those with homes of glass should seldom throw a stone. If we have nothing else to do than talk of those who sin, 'Tis better to commence at home, and from that point begin."  
"We have no right to judge a man until he's fairly tried. Should we not like his company. We know the world is wide. Some may have faults—but who has not? The old as well as young. Perhaps we may, for aught we know. Have fifty to their one."  
"I'll tell you of a better plan. And find it works as well. To try my own defects to cure. Ere others' faults I tell; And though I sometimes hope to be No worse than some I know, My own shortcomings bid me let The faults of others go."  
"Then let us all, when we begin. To slander friend or foe, Think of the harm one word may do To those we little know. Remember—curses sometimes like Our chickens—roost at home! Don't speak of others' faults until We have none of our own."

## From Carbonateville.

CARBONATEVILLE, N. M., July 5, '81.  
EDITOR GAZETTE:—Through the columns of your paper I would like to say a few words in regard to our mines. A great many do not know that within the camp of Carbonateville there are some of the richest mines in the Territory, and not only rich ones, but very fair promising prospects. There are at present more mines being worked than at any other camp in the Territory. They are producing some very fine mineral. Some rich and valuable strikes have been made recently which speak well for our camp. Among the ones now working and showing up finely we find Bonanza No. 3 at a depth of 200 feet striking a rich body of galena, a feeder off from the main vein. Assays taken from it run very high. They are now cross cutting and intend to sink deeper. They will sink a new shaft and use the present one for an air shaft. When water is found they will put up machinery. They will employ a great number of men the coming summer. They are working day and night shifts. This mine is owned by the Los Cerrillos and Tennessee Gold and Silver Mining Co. The Great Western at a depth of 214 feet brought to light a large body of mineral, most of a high grade. They are running levels along the vein and the owners intend sinking still deeper, as, I think, a contract for 100 feet more has been let. The Pretty Betsey is down to a depth of 90 feet. Water is coming in rather fast; they have ordered machinery and expect it in a few days; it will be put up immediately on its arrival. The L. H. Whitson Gold and Silver Mining Co., of Davenport, Iowa, are working a group of mines. During the past week they have taken out some very fine ore, especially from the Pacific Lode. They have a beautiful vein in this lead, carrying galena, copper and sand carbonates; they are pushing matters right along on this group of mines, seven in all. The Bonanza Mining and Tunnel Co. are making preparations to work all their mines right away. This company have some very valuable property. Among the number is the old Spanish mine, Santa Rosa, now called the Bottom Dollar. The Little Annie will be worked the coming summer; a one hundred foot contract has been let, and they intend pushing it as fast as possible. They are working the Capital. Its depth at present is 180 feet. No water has been struck as yet. The Mina del Tero is working. The Senator, at twenty-four feet, makes a remarkable showing. The smelter at Bonanza City will soon be running, and the future before us looks bright, brighter than ever before.  
Hoping to write you soon again, I remain yours, &c.,  
HERCULES.

Contracts for grading one hundred miles of Gov. Evans's new railroad, the Denver & New Orleans, have been let. Work must be begun by the 11th., and graders are obliged to keep ahead of the track-layers, who will begin by August 1st. The distance between Denver and the Arkansas river is 120 miles, leaving twenty miles not yet under contract. Material for bridges and trestle-work has been contracted for, and will be placed in position by the company's men under the direction of the Chief Engineer. About 30,000 ties are on hand in Denver and the delivery of rails will begin in about a month. The Denver Times hazards the prediction that trains will be running to the river by Christmas.

## Winning Him Back.

One of the travelers for a new fresh dry goods house recently arrived in town in the interior of the State to find that one of his customers was about to transfer his custom to a Boston house.  
"Didn't we always treat you well?" asked the New Yorker, as he sat down for an explanation.  
"Yes, I believe so."  
"Didn't we ship goods promptly?"  
"Yes."  
"And did we ever press you in a pinch?"  
"No."  
"Did you get lower prices of the Boston house?"  
"No, I can't say I did."  
"They can't understand why you should leave our house all of a sudden, after buying of us for several years."  
"I know that some explanation is due and I will make one," replied the merchant. "You know that I attended church?"  
"Yes, and so do I."  
"Do you? I didn't know that. I am looked upon as a Christian."  
"So am I. I've got the date of my baptism right here in my pocket."  
"Is that so? Well, our church is in need of repairs. We were talking it over the other day when the Boston drummer was in here, and he at once subscribed \$10."  
"Ten dollars! Why that's only two kegs of nails! Put me down for \$30 cash, a new silk hat for every season and a full suit of clothes for the minister."  
"Do you really mean it?"  
"Of course I do, and if that two-cent Christian from Boston dares to sign another five I'll send you down a \$500 church organ and pay a man \$500 a year to play it. We are a house which never makes any great display of gospel hymns and religious tracts, but when a Boston drummer blms' we show our religious hand and rake in the pot every time."  
The merchant will continue to deal with the New York house.
